BRIEF

NIGEOCOM Services Limited is the engineering company of the Nigeo Group. The Nigeo Group is a collective of professionals and organizations that are in partnership and synergy, with the specific purpose of providing best-in-class services to the increasingly vibrant telecommunications industry in Nigeria. The Group offers the following services across the spectrum of our clients' needs;

- Turn-key Engineering Services**
- Project Management**
- Facility Management**
- Equipment/Site Maintenance**
- Legal Advisory**
- Environmental Consultancy**

Nigeocom provides services to Telecommunication industry players like MTN, Airtel (formally Celtel), Globacom, Starcomms etc through their respective major contractors. We specialize in site acquisition, Turnkey site build, from Technical site survey (TSS), to final acceptance (FAC) or Build Operate and Transfer (BOT), Site Equipment Integration, Facilities & Maintenance and cleaning services coupled with robust project management knowledge which gives us an edge in the telecoms industry

MISSION

We strive to deliver excellence in any assignment we embark on.

VISION

To be the preferred one-stop industry service support provider in the areas of engineering, supply and maintenance

BRIEF

of quality equipment, building maintenance, capacity building and general supplies.

OUR CORE COMPETENCIES

Telecommunication Network design, Network implementation, Network management, system integration, telecommunications Engineering, implementation and outsourcing as well as project management are the core competence at Nigeocom. The company believes that its ability to train and educate technical resource on leading-edge networking technologies, gives Nigeocom a unique competitive advantage in the Nigerian Market.

SAFETY POLICY

Whatever environment we are working in, the safety of our personnel is paramount to the success of any assignment. As such Nigeocom is fully committed to the protection of lives and property of our company and its clients.

QUALITY POLICY

To ensure that at all times our operations are carried out in line with best industry practices which do not endanger the lives of our staff, and other stakeholders .

TURN-KEY ENGINEERING SERVICES

Nigeocom Services Limited provides end-to-end solutions incorporating:

- BTS Rollout & Project Management**
- BTS Commissioning & Decommissioning**
- Technical Site Analysis**
- BTS Site Construction Management**
- Installation, commission/integration services to a wide variety of equipments and vendors.**
- Transmission, Planning, Installation & Maintenance of Radio Microwaves**
- Provision of specialised geotechnical services with state of art Percussive & Rotary pile drilling rigs and Pile Integrity test machines**
- Design, Fabrication & Supply of Steel Equipment (Fuel tanks, Palisade fences, Mounting Pole,)**
- Installation of Optical Fibers & Intershelters**
- Site Acquisition (UPGRADE)**
- Power Solutions (Generator Installation & Generator Over-oiling, Power Analysis, Installation Of AC DB,)**
- Procurement of Telecom equipment (local and international)**
- Unique logistic / warehousing of telecom equipment**

Our core offerings include;

TRANSMISSION AND BTS MANAGED SERVICES

Our people have vast experience working in various sectors of the telecoms industry, giving Nigeocom Services the perfect platform to offer managed services, which include; link installation, Operation and maintenance of the Transmission and Data Network Management System.

SERVICES CONTO..

FIBRE OPTICS

Taking our experience, as well as our various technical partnerships, we supply a variety of equipment and materials from world leading manufacturers required for the execution of our assignments. We have the expertise in installing the equipment we supply to our clients. We pride ourselves in the ability to design, implement and maintain communication solutions with Fibre Optics Infrastructure using best in range:

Cabling equipment//Blowing equipment//Compacting equipment//Splicing equipment//Testing equipment//terminating and creating optical signal using a transmitter with the best products that guarantee a high level of client satisfaction.

We have seasoned professionals who are periodically trained to implement fibre optic network deployment.

A variety of products that can be supplied include but not limited to the following:

- Optical Fibre Cable of different capacities**
- HDPE/couplers (silicon and non-silicon coated) supply**
- Manhole, Hand holes, Joint Box production**
- Fibre splice enclosure/accessory supply**
- Fibre Optic distribution system supply**

SITE BUILD AND CIVIL WORKS

Our seasoned engineers are always ready to roll out with the latest engineering solutions applicable during site build execution. Services include:

- a. **Civil works from tower foundation to site finishing**

SERVICES CONTO..

- b. Shelter installation & reticulation**
- c. Power Services to include Hybrid systems, Solar Power systems, DG Generators installation and Commission**
- d. Supply and installation Tower and accessories**
- e. Supply and installation of Steel Palisade fence and accessories**

INTEGRATED CELL SITE MAINTENANCE SERVICES

Outsourcing the non-core operations and maintenance function allows our clients to focus resources on other critical aspects of their business. We offer the wireless market segment a comprehensive solution for preventative maintenance, facility management, and emergency response/restoration for cellular sites and Mobile switch centres. Our maintenance service for cell site includes:

- 1. Site fuelling**
- 2. Generator service**
- 3. Fire suppression systems**
- 4. Interior and Exterior painting**
- 5. Earthing system monitoring**
- 6. Tower maintenance**
- 7. General repairs**

SERVICES CONTO..

ELECTROMECHANICAL CONTRACTING AND MAINTENANCE

With our technically gifted engineers and skilled artisans, our portfolio of services consists of providing and maintaining all types of building electrical requirements and mechanical services such as but not limited to: air-conditioning systems; fire alarm and firefighting systems; gases system; plumbing systems and chemical. Our comprehensive Facilities Management services include, but are not limited to: 1.) MEP (Mechanical, Electrical, Plumbing); 2.) civil; 3.) cleaning; 4.) waste management; 5.) energy management; 6.) retrofitting works; and, 7.) corrective maintenance/reactive repairs.

Our work philosophy and approach lies in our commitment and charge to monitor the performance and condition of our assets to ensure long term sustainability, knowledge of the quality and quantity of the service levels we deliver, analyzing risks and assigning resources to the areas of utmost need, prioritizing facilities management services according to criticality, consistency in the budget formulation and systematized reporting to the client on a periodic basis. We maximize all our available resources and processes to exceed client expectations and strategic directions.

- ❑ **Delivery of Globacom engineering materials for ABIA, IMO and BAYELSA STATE (2016- 2017).**
- ❑ **Technical Audit of NATCOM manholes acquired from NITEL across Lagos State (2015)**
- ❑ **FY 14 AIRTEL project sub- contractor: link- installation :(ericsson mini link 20p,6p,2p magazine), 0.6 and 1.2 microwave radio dish installation, installation of RBS 6000 series.**
- ❑ **FY 13 MTN project sub -contractor: link- installation: (ericsson avait magazine), 0.6 microwave radio dish and installation of RBS series.**
- ❑ **Fabrication of canopy and mounting pole for roof top airtel site. (2014)**
- ❑ **Upgrading of AIRTEL burn site**
- ❑ **Civil works for EMTS/ALU green field sites from 2010 – 2011**
 - **B5504 Ilesan Ogun State,**
 - **B5550 Elume Juction Delta State,**
 - **B5535 Eyekorin Kwara State,**
 - **B3903, Ogohgoh Street Benin City,**
 - **B4202 off Adebayo road Ado ekiti 2010**

PROJECTS

- ❑ **Design and Construction of Cell Towers (2005 -2007) for:**
 - **Celtel Nig. Ltd (Airtel)/ LM Ericcson Ltd at Ogbomosho (45m, 60m)**
 - **Celtel Nig. Ltd (Airtel)/ LM Ericcson Ltd at Oniparaga, Edo State (60m)**
 - **Celtel Nig. Ltd (Airtel)/ LM Ericcson Ltd at Seme Border, Badagry with special pile foundations (60m)**
 - **Celtel Nig. Ltd (Airtel)/ LM Ericcson Ltd at Owode-Apa, Badagry with special pile foundations (60m)**
- ❑ **Construction of 45m Cell Tower at Backo Compound, Ojodu, Ikeja (inclusive of integrated block wall fencing and access steps)**
- ❑ **Maintenance and routine service of Air conditioning units and Generators for Castor Logistics Limited, Truck yard, Isheri, Lagos (2010 – 2014)**
- ❑ **Maintenance and routine service of Air conditioning units and Generators for St. Pauls Hospital, Ebutte-Metta, Lagos (2009 – 2012)**

CLIENTS AND PARTNERSHIPS

Some of our past and current satisfied clients include;

GLOBACOM

Natcom Investment and Development Limited (former NITEL)

ALCATEL

CONOIL

HUAWEI

Nigeocom services has forged key technical partnerships with a view to increasing scope of coverage, improving service delivery as well as capacity building. Our key technical partners include:

Comfort Telecoms Limited

Drausnet

TSI Limited

Project 805 Limited

Taikab Builders and Engineers

MBM Projects Limited

Stag Engineering Limited

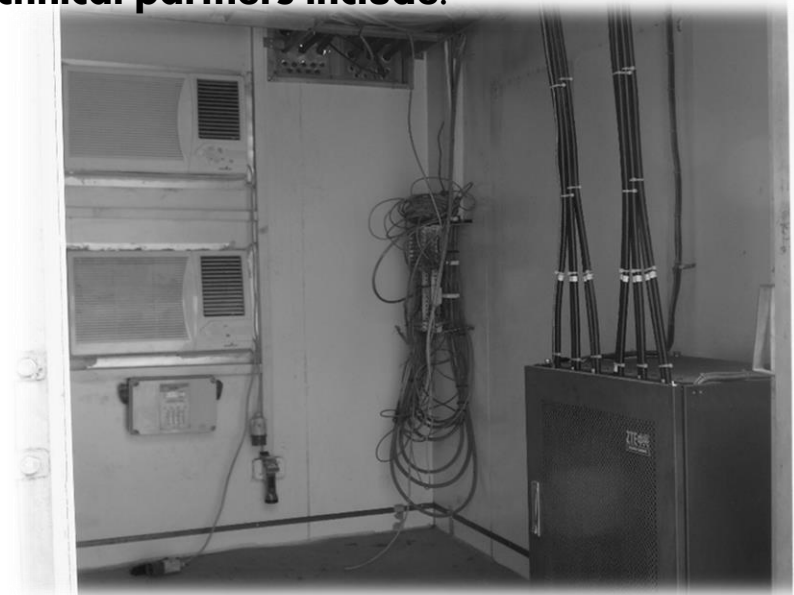

D.C. Whitehall Systems (Ireland)

Greenwood Project Company (England)

Axial Roofing Systems Limited

Castor Logistics

G.O. Beckley and Co. (Legal)
